the slightest probability that we should be able to obtain it, did we cry never so loudly. The agitation of the question can only breed bad blood between Northern and Southern California at a time when we should all be pulling together to develop our resources and make a forward move. Why, then, should the question be brought up? But if the agitation must be again marred before the public in its ghastly ceremonies, we, in common with the mass of citizens holding anti-division views, stand in no dread of a grave meeting. The apparition is harmless.

WHAT ITALY HAS TO FIGHT WITH.

In view of the present complications between this country and Italy, a glance at the armament of the latter power will be found interesting. The regular army of Italy, according to latest available statistics, consists of 255,488 men. On a war footing, this can at once be raised to the enormous number of 2,765,373 men. The annual cost of this army is about \$55,000,000, or \$1.80 per head of population.

The American army seems very small in comparison, consisting of 25,000 men on a peace footing, or 108,500 men, including the National Guard. As we have already seen, however, this country can summon a powerful army to the defense of the flag within a very short time. The cost of the American army, per capita of population, is 73 cents, which, in comparison with that of Italy, is very high.

As a naval power, Italy takes third rank among the nations of the world, and for the highest types of vessels it can show the equal of any that England has put into the water. Late statistics credit the Italian navy with 122 vessels, exclusive of torpedo boats. This, however, includes transports, school ships, dispatch boats, etc. The vessels are manned by 12,748 men and maintained at an annual cost of \$23,032,000.

The United States had, at a recent date, almost as many vessels afloat as Italy—including everything except torpedo boats—there being 109, manned by 12,114 men. The annual cost of our navy is over \$25,000,000, or more than that of Italy. When it comes to the question of armament, however, there is no comparison whatever. It is only within the past two or three years that we have launched a few vessels that could cope, on an equal footing, with the second-class vessels of the Italian navy.

The following further particulars in regard to the Italian fleet are from the San Francisco Examiner of the 15th ult.:

The Italia and the Lepanto stood from 1885 till recently as the largest warships afloat, and now are surpassed only slightly by three English ships, and today the Italian navy carries more guns of eighty ton caliber than any other navy in the world. The Italia and Lepanto are of 13,700 tons displacement, 200 feet long, 34 feet broad, with a draught of more than 30 feet, and are armed with 10-inch breech-loading guns, with a broadside battery of seven 8-inch guns in one and nine in the other sides. A number of lighter guns. The 100-ton class are mounted in a central citadel armored with 22 inches of steel. They carry a 200-pounder gun, and will perform a 28-inch diameter of wrought iron at a distance of 1000 yards.

The Re Umberto, the Sicilia and the Sardegna are of the same general type as the Italia. The Re Umberto, launched in 1888, is of 13,280 tons displacement and for her main battery has four 10-inch guns in barbette of 10-inch caliber. The Re Umberto is armed with 10-inch breech-loading guns, six 8-inch guns and ten machine and quick-firing guns. The Re Umberto is armed with 10-inch breech-loading guns, six 8-inch guns and ten machine and quick-firing guns. The Re Umberto is armed with 10-inch breech-loading guns, six 8-inch guns and ten machine and quick-firing guns.

It appears to us malapropos and idle for the Herald to attempt a revival of the agitation of the question of State division. It is apparently determined on the hopeless task of trying to make a live issue of a dead one, notwithstanding its recent statement to the effect that it "does not claim that the conditions for an agitation for State division exist here just now." We quoted these words approvingly, but our quotation does not appear to please the Herald, which now labors to show that it did not mean all that it said.

There is one phase of the question which we desire to set right, as the Herald evidently has a misconception in regard to the facts. The attitude of THE TIMES on the question of State division does not date from the period of the late gubernatorial campaign, nor are we influenced in our opinion on the subject by any promises that may have been made in connection with the election of Gov. Markham. Our objection to State division long antedates that event, and are founded on the facts of the case, totally apart from any incidental political issues that may have become attached thereto. We judge the question purely on its merits from a Southern California standpoint.

We feel confident—once more quoting the Herald—that the conditions for an agitation for State division do not exist here just now. That such conditions may possibly arise in the future we have never denied. At present all such discussion is premature, useless and damaging to our best interests. We do not believe that a respectable minority of the solid citizens of Southern California favor division. Even if they did, the Constitution of the United States forbids the formation of a new State out of an old one without the consent of the latter. Our contemporary is forced to admit that this is a real difficulty, but airily says that we may get the people of the North to give their consent "if the matter is handled skillfully." How this skillful handling is to be effected we must confess we are at a loss to understand, unless a sufficient number of votes were purchased outright—a course which our contemporary would certainly not countenance, even supposing we could afford it.

There is no general demand for State division among citizens of this end of the State; there is no crying need for such division; there is not

Italy—A quon saba case.

ties at long range, pass judgment upon troops and generals at the front, post batteries, maneuver squadrons, and ships, charge and countercharge, and fairly riot in grand tactics a la Jomini and the rest of them. The boys will have a chance next time.

It is rumored that Santa Monica and Redondo are getting up a subscription, with a view to inducing the Italians to knock San Pedro harbor to pieces, so as to make the running easy for them as the future great ports of the Southern Coast.

In estimating the value of these war rumors, it should not be forgotten that alarmist reports often net the originators of them many hundreds of thousands of dollars on the stock exchanges of the world.

TODAY is Bismarck's birthday. It will be celebrated with great ceremonies throughout Germany. The old prince retains his popularity, and probably has more admirers than the Emperor.

THE Louisiana Lottery Company would probably be pleased to settle the question of an indemnity for the Italians who were killed, in return for an extension of its franchise.

EARL GRANVILLE died yesterday. He was one of the most distinguished of English statesmen. A man who was respected by men of all parties.

8443!

THE HIGH-WATER MARK.

Sworn Circulation of the Los Angeles Times for March, 1891.

Total.....262,735 copies

Daily average.....8,443

The attention of advertisers is called to the following exhibit:

CITY OF CALIFORNIA, ss.

Personally appeared before me, H. G. OTIS, President and general manager of the Times-Mirror Company, and George W. Crawford, foreman of the pressroom of the Los Angeles Times, who, being both duly sworn, depose and say that the daily average circulation of THE TIMES for the year ended September 30, 1890, was 6762 copies; that the daily average circulation for the four weeks ended October 28, 1890, was 6823 copies; that the daily average circulation for the four weeks ended November 30, 1890, was 7254 copies; that the daily average circulation for the four weeks ended December 28, 1890, was 7512 copies; that the daily average circulation for the month of January, 1891, was 8389 copies; that the daily average circulation for the month of February, 1891, was 8019 copies; that the total circulation for the month of March, 1891, was two hundred and sixty-two thousand seven hundred and thirty-five copies; being a daily average of 8443 copies; and, further, that said circulation was bona fide in the strictest sense.

(Signed) H. G. OTIS.

Subscribed and sworn to before me this 31st day of March, 1891.

(Signed) G. A. DOBSON, Notary Public.

FOR THE WEEK ENDED MARCH 8.....59,350

FOR THE WEEK ENDED MARCH 15.....59,200

FOR THE WEEK ENDED MARCH 22.....58,850

FOR THE 31 DAYS ENDED MARCH 31.....262,735

Total.....262,735

Average per day for the 31 days, 8443

THE TIMES stands ready to exhibit to advertisers its circulation books and pressroom reports at any time, with a verification of its claim above. Its charges are fixed on the only true basis, namely, CIRCULATION.

THE TIMES-MIRROR COMPANY, Times Building, Los Angeles.

THE True and Patriotic Idea.

LOS ANGELES, March 31.—[To the Editor of THE TIMES.] War, is it? Well, let it come! The Government of the United States, conscious of its disposition and ability to do justice on all occasions, can abide with dignity the ill-advised and hostile action of the Italian government in the New Orleans episode; while King Humbert can rely with certainty that a large class of desirable people, now enjoying privileges in the United States denied them at home, will find their occupation gone and their places filled with others having a higher appreciation of those privileges than they predecessors.

If this war-cloud shall serve to push action in Congress looking to a reformation in our emigration laws, the present incident will not be without its value. So let the war go on! Justice is done the American citizen as well as those of other countries, so many of whom have proved unworthy.

J. M. MANSFIELD.

A Scientific Discovery.

(San Francisco Post.)

H. Clendenen of Rough and Ready, Nevada county, has written the general land office at Washington that the geology of California can be better understood by believing that "there is a hole through the earth from pole to pole through which an electric fluid runs continually, and that the water that rises to the summit of the Rockies and other ranges is supplied directly from the ocean by means of this subterranean passage, the sky being air tight and preventing the absorption of moisture by anything outside of the universe to which the earth belongs."

It is to be presumed that Mr. Clendenen fancies he has struck the mother lode of electricity.

A Sort of Partnership.

(Indianapolis Journal.)

When you hear a man claim that he is but a humble instrument in the hands of the Lord, you may feel sure that he is not trying to emphasize his own humility so much as to let the fact that the Lord has seen fit to use him.

SOME NEW LAWS.

Big Batch of Bills Signed by the Governor.

Taxpayers Will Hereafter Pay Up Twice a Year.

The Act to Allow Licenses for Gambling Not on the List.

A Change in the Name of the Southern California Insane Asylum—Many Measures of Interest.

By Telegraph to The Times.

SACRAMENTO, March 31.—[By the Associated Press.] Gov. Markham today appended his signature to the following bills left in his hands at the close of the legislative session:

Providing for the semi-annual payment of taxes; the County Government Bill; enabling heirs to hold estates in fee simple; and to mortgage or lease them; for the formation and governing of building and loan associations; amending the laws for the organization of corporations and government of municipal corporations; providing that a husband cannot make a gift of community property or convey the same without a valuable consideration until the wife in writing assents; providing for sanitary districts in any part of the State; providing for the execution of all judgments of death within the State; providing for the execution of all judgments of death within the State; providing for the execution of all judgments of death within the State.

PHILADELPHIA, March 31.—[By the Associated Press.] The great glove contest between Cal McCarthy of Jersey City and George Dixon of Boston, came off tonight, and the colored Boston lad is the victor. Crowds came from all directions, and the rink was packed to its utmost capacity. Prominent sporting men from all over the country were in the audience. Betting was free, but the odds were all on Dixon. This is probably accounted for by the fact that a rumor prevailed all day that McCarthy had been drinking and not taking proper care of himself.

THE fight was for the feather weight championship and \$4000. Side bets were plentiful, and great excitement prevailed. It is believed fully \$25,000 must have changed hands on the result. Dixon was seconded by Tom O'Rourke and H. Hodgkins. McCarthy's seconds were Jack McAuliffe and Billy Madden. Jerry Dunn was referee. The scales were set at 115 pounds. Neither man tipped the beam at that mark and they jumped off at that none of those present could ascertain their exact weight. Sheriff Tappan was served with an injunction to restrain him from interfering with the fight. Both men were apparently in prime condition when they entered the ring.

In the first round the men sparred cautiously and exchanged blows evenly.

In the second McCarthy was too eager, and throwing himself open to Dixon's swings, was floored twice in quick order, being almost knocked out a second time.

In the third round McCarthy again tried in fighting and got the worst of it, but in the fourth he was cautious and had the best of the round.

In the fifth Dixon forced the fighting and punished McCarthy severely, getting one clean knock down. In the next three rounds there was hard fighting, and the men were evenly matched.

In the ninth round McCarthy punched hard at long range, and Dixon landed heavily on his nose, making it bleed freely.

In the tenth round both tried long range tactics, with no particular damage.

In the eleventh round there was hard fighting, and McCarthy cut a deep gash under Dixon's right eye with a kick, and the fight was over.

In the twelfth round Dixon forced matters, and McCarthy, who was bleeding freely, clung to his neck to avoid punishment.

In the next two rounds McCarthy knocked McCarthy down just as he got up, and he was completely exhausted. At the end of the round the referee declared Dixon the winner. Six ounce gloves were used.

WASHINGTON, March 31.—The Commissioner of Indian Affairs has just received the following from Dr. Eastman, a full-blood Sioux and Government physician at Pine-Ridge Agency in South Dakota:

"The papers have been reporting me as saying that there will be trouble in the spring. You know what I said to you in regard to this matter, and you know I am more confident of this now than when I saw you. American Horse came into my office today, saying that he too had been reported as becoming hostile. He said to me: 'You, the commissioner, and general I shall stand true to my word and position in regard to trouble.' I have not said one word to give the impression. I think some of my enemies have lied about me."

Bell Telephone Election. BOSTON, March 31.—At the annual meeting of the American Bell Telephone Company today the old board of directors was re-elected with the exception that Thomas B. Bailey takes the place of Stanton Blake, deceased.

Groff's Successor. WASHINGTON, March 31.—Ex-Representative Carter of Montana this morning took the prescribed oath and entered upon his duties as Commissioner of the General Land Office.

Auction—Furniture.—Rhodes & Reed will sell the entire contents of the Rodden post rooms, No. 115 & 116, Springfield, April 2, 10 a.m., comprising 1 lot top desk, 1 revolving top desk, office chairs, 1 antique oak sideboard, 4 poker tables, chairs, stands, tables, and about 150 yards Brussels carpet, etc. Sale positive. H. H. MATLOCK, Auctioneer.

Auction, Nursery Stock.—Rhodes & Reed will sell at corner Second and Broadway, a lot of Nursery Stock, consisting of Shrubbery and Ornamental Trees.

Now Ready for Delivery.—The Times Herald Atlas of the World. A complete five-dollar atlas of the world free. This is what the Times-Mirror Company offers to every person sending one year's cash subscription to THE DAILY TIMES—\$10.20 in the city or \$9.00 by mail. The same offer is made for five subscriptions to the WEEKLY MIRROR and \$10.00 in cash. When the atlas is sent by mail thirty cents postage will be added. This atlas has been specially published under the order of this company, by the great publishing house of Rand McNally & Co., Chicago, and is uniform with the standard atlas published by them, except that it contains a double-page map of California and bears upon its title page the words "THE LOS ANGELES TIMES Herald Atlas of the World." We offer it at a large profit and valuable premium over given for a single newspaper subscription. This great atlas is now ready for delivery to our patrons.

KANSAS CITY, March 31.—The American National Bank of this city, which failed January 19, resumed business this morning with over \$1,725,000 in cash in its vaults, and it was predicted there would be a run on the bank when it opened, but on the contrary the bank has received deposits from its old customers and there is a general feeling of confidence.

Colusa Election Frauds. COLUSA, March 31.—In the Superior Court this morning the attorneys in the famous election frauds argued for a change of venue. The attorneys for the defense asked that the case be sent to Yuba or Tehama, while the prosecution asked for a change to Butte or Yuba. The judge thought an impartial trial could be had in Yuba and so ordered.

DES MOINES (Iowa), March 31.—The grip epidemic has struck Des Moines, and doctors report that hundreds are affected. In many cases it is proving fatal. Reports from the surrounding towns show that the disease is general throughout Central Iowa. The weather, in the opinion of physicians, continues favorable to its spread, and a grippé complicated with other diseases.

CHICAGO, March 31.—Col. A. S. Fol-

lansee, who, as senior captain, commanded the Sixth Massachusetts Infantry when it was attacked by the mob, while passing through Baltimore at the beginning of the late civil war, died here today of the grip. Col. Folansbee had been in business here since the close of the war.

THE SUGAR TRUST.

Denial of the Report that It Has Captured Spreckels. NEW YORK, March 31.—[By the Associated Press.] A dispatch from San Francisco stating that Theodore Havemeyer has made an agreement with Claus Spreckels dividing the territory and ending competition caused a sharp advance in sugar stocks. Officials of the trust, however, deny the statement. Neither H. O. Havemeyer nor Theodore Havemeyer have been on the Pacific coast recently.

H. O. Havemeyer says: "There is not one word of truth in it. There never has been a war with Claus Spreckels; there has been no compact made and no division of territory. If anything has been done it is a private matter with Havemeyer & Elder, and has nothing to do with the American company."

Theodore Havemeyer and Treasurer Searies also denied that any deal has been made, and said that if a deal had been made it was with Havemeyer & Elder and not with the trust.

PHILADELPHIA, March 31.—C. A. Spreckels, son of Claus Spreckels, said that the reported agreement between his father and the Sugar Trust was without foundation. He added that his father would not make a deal with the trust, that the report had been repeatedly circulated and denied, and there was no more reason for talking about the matter now than some time ago. The refinery here would be operated as an independent concern and would not be sold to the trust or abandoned.

INDICTED MAGNATES.

DEPEW AND OTHERS MUST STAND THEIR TRIAL.

Charged with Being Accessories to the Terrible Tunnel Slaughter in the City of New York.

By Telegraph to The Times.

NEW YORK, March 31.—[By the Associated Press.] The directors of the New York, New Haven and Hartford Railroad Company were today indicted by the Grand Jury for manslaughter in connection with the fatal collision in Fourth avenue tunnel, February 20, last, whereby there were six lives lost. The names of those indicted are: Charles P. Clarke, Wilson G. Hunt, E. H. Trobridge, William D. Bishop, Nathaniel Wheeler, Henry C. Robinson, Edward M. Reed, Joseph Park, Chauncey M. Depew, Henry S. Lee, William Rockefeller and Leverett W. Brainerd.

The indictment charges that the corporation committed the offense, but the twelve men being directors, aided and abetted the corporation. Another count says these twelve men ran a railroad and heated the cars with stoves. Still another count says that a certain corporation being a steam road and these men being directors, they permitted trains to be heated by stoves.

As soon as possible the twelve men indicted will be arraigned to plead. Chauncey M. Depew was admitted to bail late this afternoon in the sum of \$5000. Cornelius Vanderbilt became his bondsman. He was the first of the indicted directors to furnish bail. The remaining eleven are expected to come forward in good season and furnish security for their appearance at trial.

Officers of the road were also placed under bonds to appear as witnesses against the directors.

Ran on a Rock.

DETROIT, March 31.—The new steamer City of Detroit of the Detroit and Cleveland Steam and Navigation Company, ran on a rock at the Lime Kiln crossing, about fifteen miles below Detroit, this morning, while on her way to Cleveland. The vessel struck amidships and filled one air-tight compartment. A scene of confusion ensued among the passengers on board, but orders were soon restored and the boat was run into the Canadian Pacific slip, where she is now being pumped out.

Dr. Crosby's Funeral.

NEW YORK, March 31.—The funeral of the late Rev. Dr. Howard Crosby took place this afternoon. After private services at the house by Drs. John Hall and William M. Taylor, the body was removed to the Presbyterian Church on Sixth avenue, of which, for many years, Dr. Crosby was pastor. Here public services were held, conducted by Dr. Hall and Dr. Taylor. Interment will be in Woodlawn Cemetery tomorrow.

The Omaha Bridge Trouble.

NEW YORK, March 31.—The reports that the Omaha bridge trouble had been settled are being denied by officials of both the Pacific and Rock Island roads. President Cable of the Rock Island road made the following statement: "The Omaha bridge controversy has not been settled. It is still in the courts, and I do not see how it can be settled outside. I have had no conference with Gould."

A Reservoir in Danger.

LIMA (O.), March 31.—The Merced county reservoir, which covers nearly thirty thousand acres of land, is in great danger of breaking and flooding the surrounding country. The reservoir has been filled by recent heavy rains, and in one place about a mile from Celina has broken the embankment. If the waves continue to wash over the embankment it cannot last. Many people in the vicinity are moving out.

The Doors Again Open.

KANSAS CITY, March 31.—The American National Bank of this city, which failed January 19, resumed business this morning with over \$1,725,000 in cash in its vaults, and it was predicted there would be a run on the bank when it opened, but on the contrary the bank has received deposits from its old customers and there is a general feeling of confidence.

Colusa Election Frauds.

COLUSA, March 31.—In the Superior Court this morning the attorneys in the famous election frauds argued for a change of venue. The attorneys for the defense asked that the case be sent to Yuba or Tehama, while the prosecution asked for a change to Butte or Yuba. The judge thought an impartial trial could be had in Yuba and so ordered.

Des Moines (Iowa), March 31.—

The grip epidemic has struck Des Moines, and doctors report that hundreds are affected. In many cases it is proving fatal. Reports from the surrounding towns show that the disease is general throughout Central Iowa. The weather, in the opinion of physicians, continues favorable to its spread, and a grippé complicated with other diseases.

FOREIGN AFFAIRS.

Later Accounts of the Massacre in India.

Another Party of Soldiers Thought to Have Been Cut to Pieces.

Several High Officials Taken Prisoners by the Natives.

Death of Earl Granville—The Pope Seriously Ill—Reward for the Capture of the Bulgarian Assassin.

By Telegram to The Times. CALCUTTA, March 31.—[By Cable and Associated Press.] Official dispatches received by Government officers confirm the report given yesterday of the massacre of Gorkhas at Manipur in the province of Assam, where about 470 of these native soldiers were slain by hostile tribesmen of Assam. The fate of the British officers in command of the Gorkhas and of the chief commissioner, James W. Quinton, who was conducting negotiations at the durbar for the arrest of a prominent chief, who had been instrumental in deposing the Rajah of Manipur, is still uncertain, but the Viceroy of India, Marquis of Lansdowne, believes that all the officers and officials have either met death or that they are held prisoners.

In addition to the disaster at Manipur it is believed a force of British troops, composed of a detachment of 200 soldiers of the Bengal infantry and about eighty Gorkhas who were marching from Shillong to Manipur, in order to reinforce the Forty-second and Forty-fourth Light Infantry, which composed the escort of Chief Commissioner Quinton, have also been attacked and have shared the same fate as their comrades at Manipur. The Bengalese infantry detachment and eighty Gorkhas, it appears, were set upon by Assamese as the native troops referred to were passing through a difficult and dangerous pass, and though they fought gallantly against heavy odds, the rebel tribesmen, from the advantage of their positions on the side of the pass and ahead and behind the British force, poured such a destructive fire into the ranks of the Bengalese and Gorkhas that the latter are said to have been killed to a man.

The viceroys carrying troops into the province of Assam, in order to punish the hostilities. Troops are also being sent into the States located in proximity to Assam in order to prevent any possible disorder or warlike outbreak, which it is thought might follow the spreading of the news of the massacre of British troops at Manipur.

SIMLA, March 31.—Further particulars are received from the Rajah of Manipur whose deposition by a powerful chieftain of Assam was the cause of the present trouble. The insurgents captured Chief Commissioner Quinton, Mr. Greenwood, the British political agent at Manipur, and Col. Skene, commander of the detachment from the Forty-second and Forty-fourth Gorkha regiments which defended the camp of the commissioner pitched between Kohima and Manipur. Mrs. Greenwood, wife of the political agent, two assistant commissioners and one of the officers of the Gorkhas escaped. The opinion is that the military authorities will have to punish the insurgent tribes severely in order to avert a more serious hostilities which might follow any hesitancy or display of weakness on the part of the British officials.

THE BULGARIAN ASSASSIN.

SOFIA, March 31.—The Bulgarian government has offered a reward of \$5000 for the apprehension of the murderer of the late minister of finance, M. Belcheff, and has granted a pension for life to the murdered man's widow.

THE POPE ILL.

ROME, March 31.—The Pope is suffering from a severe attack of stomach trouble. His condition is such that he is compelled to keep in bed.

EARL GRANVILLE DEAD.

LONDON, March 31.—Earl Granville died this afternoon.

SENSATIONAL SUIT.

Damages Asked for Imprisoning an Innocent Man.

CHICAGO, March 31.—[By the Associated Press.] Charges of a highly sensational character are made in a suit for \$100,000 damages begun in the Circuit Court this morning. Plaintiff is Eugene Dunne, formerly a newsboy, who claims his life has been wrecked as the result of a conspiracy between Orla W. Potter, the millionaire president of the Illinois Steel Company, and Tom Fox, Jas. Hutchins and Frank Allen, who are also made defendants. It is alleged that a deep plot was laid by Potter to break up the acquaintance between his daughter and Dunne, and with this end in view, plaintiff claims he has been innocently made to serve four years in the penitentiary. The charge is also made that the then editor of a newspaper in Chicago arrested the boy's father on receiving \$15,000 from Potter. A New York paper procured and published the story, which created a decided sensation at the time.

Racing at New Orleans.

NEW ORLEANS, March 31.—[By the Associated Press.] The track was fast.

Three-year-olds and upward, maiden allowances, five furlongs—Phantom won, Surget second, Harembeus third. Time, 1:02.

Six furlongs—Rita won, Maud second, Boley Holey third. Time, 1:10.

Two-year-olds, four furlongs—Adalia won, Koran second, Phelan Dornan third. Time, 0:50.

Handicap, mile and seventy yards—Whitney won, Mamie S second, Cashier third. Time, 1:47.

Edwin Booth to Retire.

NEW YORK, March 31.—An evening paper has the following:

Edwin Booth has informed his manager that he will not play next season, and has canceled two weeks in Brooklyn. This means, in the manager's opinion, that he will never appear again. It is quite certain that his present engagement at the Brooklyn Academy of Music this week will be his farewell one.

Chairman Midegley Denies.

CHICAGO, March 31.—Chairman Midegley denies that he has communicated with officials of the Mississippi Pacific demanding the discharge

of the agent who issued the reduced sugar tariff. It is understood that the whole matter has been referred to the advisory board.

Insurance Company in Trouble. TOPEKA (Kan.), March 31.—Insurance Commissioner Wilder has revoked the license of the Capital Insurance Company (mutual) on the ground that the company is insolvent. He says the liabilities are \$25,000 and that the company has on hand only \$8000 to meet obligations. The company will appeal to the courts. The officers say the company is solvent.

Gone Back to Work. ROCHESTER (N. Y.), March 31.—A good many striking clothing cutters have been taken back to work. At a mass-meeting of cutters, trimmers and foremen this morning a resolution was adopted in which they sever their connection with the Knights of Labor and declare their intention of furthering the interest of their employers.

WORLD'S FAIR GOSSIP.

PLAN FOR THE ART PALACE ON THE LAKE FRONT.

Lively Times Anticipated at the Next Election of the Local Directors—A Cut in Salaries.

By Telegram to The Times. CHICAGO, March 31.—[By the Associated Press.] An ordinance was passed by the City Council last night permitting the Art Institute to erect a large palace on the lake front. Two hundred thousand dollars is already pledged toward the building. The Art Institute will furnish \$250,000 and the World's Fair will give \$100,000. The building is to cost not less than \$600,000 and perhaps \$1,000,000.

The Board of Control of the World's Fair is in session here, but no important business is being transacted. The National Commission is scheduled to meet tomorrow, but it is not thought now that a quorum will be here then. Ex-President Gage of the local directory is quoted as saying that there will be a radical change in the next board. It is understood that this will result largely from discontent with the action on the site question. Trade interests that were not organized at the first election are now working together and will, it is expected, cut a large figure in the election.

The National Board of Control will report to the commission that President Palmer consents to a reduction of his salary to \$8000. Vice-chairman McKenney takes \$3000 on his salary, and Secretary Dickenson cuts his \$10,000 in two. These reductions alone will effect a saving of \$14,000.

Hotel Burned.

DALLAS (Tex.), March 31.—The Georgia Hotel was burned this morning. James McAlester was burned to death. Mrs. W. E. Baird and son, Mr. and Mrs. M. O. Davis, Pat McCarthy, Ed Kreea and others were badly burned or hurt by jumping, but none fatally.

Another Railroad Incorporated.

DENVER (Colo.), March 31.—The Mexican Cuernavaca and Pacific Railroad Company was incorporated today with a capital of \$2,000,000. The line will run from the City of Mexico to Cuernavaca and the coast through a very fertile region for a distance of 320 miles.

Exonerated.

DENVER, March 31.—The special legislative committee investigating the charges of corruption against Judge Rucker of Aspen has handed in a report exonerating the Judge.

Granted an Extension.

PHILADELPHIA, March 31.—The Whitney Car Wheel Works, with assets of \$72,645, and liabilities of \$558,240, were granted four years' extension by their creditors today.

Boston Merchant's Suicide.

BOSTON (Mass.), March 31.—F. H. Higginson, a retired merchant, committed suicide by shooting this morning. The cause is not known.

Prominent Divine Dead.

CHICAGO, March 31.—David Hatfield, a well-known Methodist divine of Evanston, died this morning of pneumonia.

Some Good Advice.

[Antelope Valley Times.]

There are some people around here, who in our opinion, had better remove their six-shooters from off their person, and make up their mind to quiet down a little, and lead peaceful lives. There is no danger of being hurt if you pay attention to your own business and let other people alone. We have never carried a weapon of any kind and we have never been in a position where we thought we needed one, yet we have been around a little, and seen a little of the world. The practice of carrying a weapon in a civilized country is a despicable one, and should be stopped.

The Hundredth Man Has Rights.

[Philadelphia Record.]

Some newspaper editors chafe under Mr. Dewey's dispiriting opinion that "nobody has time to read editorials." But there is a heap of truth in Chauncey's remark. Editorials are not intended for general perusal. A hundred-record readers will take in the Lingua matter literature in this paper where one will read this paragraph. Yet the one reader must be served as well as the hundred; and, like the yeast in the loaf, he leavens the whole lump.

An Expensive Vote.

[Exchange.]

At the recent Canadian elections there was a precinct in Winnipeg that was known to be very close. A resident of the precinct who wielded considerable influence was absent in Honolulu. Before the election the Canadian Pacific Railroad brought him home, 6000 miles, paying all his expenses, in order that he might throw his vote and influence in favor of the Government. It cost the railroad \$750.

Discipline in Germany.

[Exchange.]

A soldier in Breslau has been sentenced to a long term of imprisonment for expressing an unfavorable view on the Kaiser's military abilities. An officer who heard the man knocked him down, and then ordered him to be court-martialed.

A New York Opinion.

[New York Press.]

De Young Republicans of the California Legislature made themselves Felton top of Este.

ALONG THE COAST.

Secretary Proctor and Party Visit Tucson.

And Are Now on Their Way to Los Angeles and the North.

The Cruisers Charleston and San Francisco Going South.

Sensational Affair at Benicia—Death of a Young Lady on a Railway Train, from Malpractice.

By Telegram to The Times.

TUCSON (Ariz.), March 31.—[By the Associated Press.] Secretary of War Proctor, accompanied by Gen. R. N. Batchelder and Gen. Alex. McCook, arrived this evening. Secretary Proctor is inspecting the military posts and garrisons. It has been three weeks since he left Washington. He has visited eighteen posts, including Forts Grant, Thomas and San Carlos in Arizona. The party left Fort Thomas this morning and drove eighty miles in an ambulance to Wilcox. They arrived at Tucson this evening, the quickest time ever made between Thomas and Tucson. They left for Los Angeles and will visit San Diego, San Francisco, Vancouver and return East by the Northern Pacific. They will visit the Sioux reservation.

SCOURGED.

An Oregon Town Badly Damaged by Fire.

LAGOON (Or.), March 31.—[By the Associated Press.] Fire in the business portion of the town this morning destroyed property in the rear of Kelly & McCarthy's saloon building on Depot street.

The flames spread in both directions, consuming four saloon buildings and the general merchandising establishment of Marston & Huelet.

The principal losses are Marston & Huelet, general merchandise, \$40,000; insurance \$27,500; J. H. Thorson & Co., saloon, \$4,000; insurance \$2,000; Somner & Blum, store building, \$1,000; insurance \$4,000; J. H. Plater & Son, law library, \$2,000; insurance \$850; total damage \$51,000.

MALPRACTICE.

Death of an Unfortunate Girl on a Railway Train.

BENICIA, March 31.—A woman whose name is believed to be Kilburn, aged 22, died at the station here on the arrival of the train for Sacramento this morning. It is claimed her death was due to a criminal operation performed in San Francisco, and officers are endeavoring to secure a clew.

The coroner's inquest on the body of the young woman decided that her name was Ida Shaddock of Maxwell, Colusa county, and that her death was caused by a criminal operation performed in San Francisco by parties unknown. The jury recommended that one Petrie, who had charge of Miss Shaddock on the train, be held pending further investigation.

Petrie says he did not know the young woman, but that she was put in his care by a stranger man at Oakland pier. The body will be sent the girl's father, J. C. Shaddock, at Colusa.

THE TWO CRUISERS.

Future Movements of the Charleston and San Francisco.

SAN FRANCISCO, March 31.—This morning the ceremonies attending the transferring of Admiral Brown's flag from the Charleston to the San Francisco took place at Mare Island. The arrival of the Admiral was acknowledged by a salute of nineteen guns from the cruiser's battery. This change now makes the San Francisco the flagship of the Pacific squadron and the command of the Charleston passes to Capt. Remy.

The Charleston will soon follow the San Francisco to Chile. She put powder on last Monday and is coaling today. It is believed she will go on Monday next and try her large eight-pounders before proceeding south. The Charleston's armament is much more formidable than that of the flagship.

Terrorful Explosion.

MOSCOW (Idaho), March 31.—An explosion of dynamite occurred today at Taylor & Lander's stone quarry. Bartemey Swoops and Fred Kramer were instantly killed and William T. McGraw was dangerously injured. The men were thawing out dynamite cartridges in their cabin when the explosion occurred, blowing things into kindling wood and hurling the men several feet into the air.

School Teacher Arrested.

SAN FRANCISCO, March 31.—Joseph O'Connor, principal of the Valencia Grammar school, was arrested today on the charge of battery, for severely whipping Chester Kinsman, a pupil. He was released on \$500 bonds.

About Hais.

An eminent physician declares that a stiff hat is the cause of catarrh and baldness, and another eminent physician says that a soft hat is the cause of baldness and catarrh. These two expert opinions might puzzle us, were it not that another authority on health declares that men will never be healthy until they stop wearing any hat.

In a San Francisco Theater.

[Judge.]

Soubrette (from the East)—Murder! help! police!

The Manager—Calm yourself, my dear young lady. What is the matter?

Soubrette—How can I? A man in the gallery threw a brick at me.

The Manager—That's all right. The gentleman was from Fresno, and the brick was a gold one. Wait for an encore.

He Was Mistaken.

[Chicago Tribune.]

He—I know, Miss Kojones, that it looks like great presumption for me to speak of love to you. I have neither youth nor good looks. I am poor, uneducated, and have no influential friends. I have nothing that can attract the admiration of a young lady.

She—You are mistaken, Mr. Whackster, I admire your magnificent nerve.

A Little Something to Unlearn.

[Wheeling Intelligencer.]

"Remember," say the Italian papers of this country, "that we are all Italians; that while earning a livelihood in the United States, and free to enjoy its institutions, we are subjects of the King of Italy." Right here is where the trouble comes in.

ROYAL ARCANUM.

Noble Work of the Brooklyn "Red Hand." Other Items.

The Royal Arcanum Red Hand association, of Brooklyn, N. Y., which has now been in existence for about two years, is one of the noblest and most successful agencies to the order. It looks up grandly in purpose amid the benefits of the royal secret brotherhood, and already much good has been done, says The Brooklyn Eagle. The credit for its existence is due to a very few noble leaders, who have in this movement, one man—whose names should be placed on a special roll of honor. Several brothers have been cured for in the hospital—St. John's—and the treatment which they have received there, and which they could not positively have secured at home, has greatly benefited them. In one case, the patient being still in the hospital, the doctors positively declare his life was saved by transferring him to the bed of the association.

Supreme Secretary V. Q. Robinson reports the W. and B. fund to the grand lodge, 1890 as follows: Balance on hand Dec. 31, 1889, \$129,571.64; received on fifteen assessments, \$2,043,991.80; payments in 1890, \$2,712,231.33; balance on hand Dec. 31, 1890, \$214,139.40 in current account and \$31,500 in delayed claims account; claims paid, \$25. The membership statement is as follows: Total membership Dec. 31, 1889, 97,992; initiated in 1890, applications received by subscription, 16,592; in this movement, 545; suspensions and expulsions, 2,300; permanent withdrawals, 60; death claims proven and partially proven in 1890, 983; estimated membership Dec. 31, 1890 (reports not all in), 111,673, thought to be a low estimate.

The Royal Arcanum has two councils in Atlanta, Ga., Atlanta council, No. 100, with 375 members, and Piedmont council, with fifty more, making a total of 425. The membership roll for the year just ended shows a gratifying increase, more than twenty new names being added thereto. The grand lodge of the Royal Arcanum meets in Savannah on the third Wednesday in May.

KNIGHTS OF PYTHIAS.

The Subject of a Pythian College Discussed—Other Items.

In the matter of the proposition of Howard Lodge, Gallatin, Tenn., and of the grand lodge, regarding a Pythian college, the supreme lodge heartily endorsed the proposition, and recommended it to the favorable consideration of the order union. It is recommended its incorporation under the name of the "Pythian college," authorized its agents or representatives to call on subordinate and grand lodges of the order, wherever situated, for financial aid in endowing and building up said school, and to encourage contributions on the part of others appropriated \$1,000 to that worthy object. Surly with this cordial and fraternal endorsement, backed by that of the order in this grand jurisdiction, the noble Pythian project is beyond question. From Report of Supreme Representatives.

The richest lodge in Indiana is Crescent lodge, No. 38, of New Castle, the total resources of which are \$7,371.15, and the next richest is the noble Pythian lodge, No. 10, of Evansville, the latter having the largest membership, 531 knights enrolled.

The order is growing famously at Zanesville, O.

Savannah, Ga., has 665 knights and five lodges.

There are 1,700 Pythian knights in Kansas City and thirteen lodges.

The order in West Virginia gained twelve lodges and 563 members in 1890.

What Secret Societies Are Doing.

The amount of money paid to widows and orphans by the benevolent fraternal societies during the last twenty years is approximately as follows:

Ancient Order of United Workmen, \$2,300,000; Knights of Honor, \$2,000,000; Royal Arcanum, 16,000,000; American Legion of Honor, 17,000,000; Knights and Ladies of Honor, 16,000,000; Other fraternities, 25,000,000.

Total of all orders, \$109,200,000.

This estimate is too small, rather than too large. It excludes the payment made for sick benefits, which probably amount to \$100,000,000, as well as those made by the Masons, \$24,000,000 annually.

The present membership of the benevolent beneficiary orders in the United States and Canada is probably not far from 1,250,000, and they are paying out on death claims not less than \$2,000,000 per month, or \$24,000,000 annually.

The amount of certificates outstanding is about \$2,500,000,000. This prodigious sum will be paid within the next fifty years.—Overseer.

Order of the Royal Ark.

The present membership of the order is upward of 13,500 and located in ten different states.

Mutual One-Year Benefit Association.

The association now has 160 lodges, with over 9,000 members.

CALIFORNIA FRUIT SYRUP.

Stop taking Cathartics (purgings) PILLS and Mercenary Remedies and use CALIFORNIA FRUIT SYRUP, which is composed of pure herbs and fruit. It does not purge or grip, or sicken the stomach, and is palatable.

California Fruit Syrup cures Habitual Constipation, Piles, Indigestion, Sick and Nervous Headache, Biliousness and all derangements of the stomach.

It purifies the Blood and expels Fevers and Colds.

California Fruit Syrup is a Family Remedy equally useful for men, women and children.

California Fruit Syrup tones up the Intestines, increases the secretions which in turn facilitates digestion and relieves Constipation.

Sold in bottles, 50c and \$1. by all leading druggists, or at the branch office.

CALIFORNIA FRUIT SYRUP CO., Room 8, 217 W. First St., Los Angeles, Cal.

If your local druggist does not keep it get it at the Office as above, and if it does not benefit you, after taking half a bottle, your money will be returned on your bringing the remaining half bottle back to the office.

Manufactured only by the

CALIFORNIA FRUIT SYRUP CO., LOS ANGELES, CAL.

Testimonials from the best families in the city can be seen at the office.

Up to the 14th of April a full-sized 50c bottle will be sent to the office of any Physician in town on written application, free of charge.

Dr. J. H. Hastings, 103 N. Spring St., Room 10, Los Angeles.

Country Physicians can get a similar bottle free by payment of expressage.

LODGE ROOM GOSSIP.

NEWS AND NOTES FROM THE PLACES WHERE MYSTERY LURKS.

A Portrait and Sketch of Great Sachem William J. McClure, a Prominent Red Man, Who Died Recently—Other Secret Society Items.

The Improved Order of Red Men has been for a long time particularly free from the ravages of death among its prominent members, but when on Jan. 23 the grim destroyer took from the ranks Past Great Sachem William J. McClure, he chose a shining mark.

Bro. McClure was born in Madison county, Ind., on the 10th of March, 1808. S. D. 34, 1872, he was elected Grand Sachem. He was a graduate of the Baltimore Medical college, and for several years he practiced medicine. He was a member of the Baltimore Medical college, and for several years he practiced medicine. He was a member of the Baltimore Medical college, and for several years he practiced medicine.

WILLIAM J. MCCLURE.

Bro. McClure was a member of the Baltimore Medical college, and for several years he practiced medicine. He was a member of the Baltimore Medical college, and for several years he practiced medicine. He was a member of the Baltimore Medical college, and for several years he practiced medicine.

MASONIC.

Wonderful Work Being Done on the Big Chicago Temple.

One of the most remarkable feats in the building line is now being accomplished at the northeast corner of Randolph and State streets, Chicago. Although it has been less than two months since the work was begun on the Masonic temple, the foundations are already completed, and before people realize it the columns will be extending up into the air.

The hole in the ground has been covered with a wooden raft, and but for the fact that the work is going on constantly, day and night, with three shifts of men, who work eight hours. Thus three days' work is done in one. The general belief is that the roof was built in order to keep the ground from freezing, so work could be begun early in the spring.

By that time the building will have gotten up with and passed the big hotel which is going up so rapidly at the northeast corner of Dearborn and Jackson streets.

Time has been so carefully calculated that the contractors for the various branches of the work have accurate knowledge of the time they are to begin work. The materials have been ordered and a large portion of them is either in Chicago, on the road or ready to be shipped. It is difficult to believe, but it will nevertheless be proved, that by Oct. 15 the building will be under roof and under steam.

Notes.

Work has been commenced on the new Masonic temple at New Orleans, and the cost will be about \$100,000.

Kansas has a lodge named "Ben Hur" and in the province of Yorkshire, Eng., there is a lodge bearing this title, "Carthage."

A. O. U. W.

The Remarkable Success of Nebraska Grand Lodge—Notes.

Nebraska grand lodge, one of the youngest in the order, has had a wonderful degree of success. Possessing probably the healthiest climate of any state in the union, it is one of the most desirable fields to cultivate.

An A. O. U. W. temple has just been erected by the lodge at Grand Island. In it are located the offices of the grand master workman and grand recorder, and a beautiful lodge room. It was dedicated Dec. 16, 1890.

"1741" is the modest membership which the Detroit Banner gives Big G. Gain for December 1890, and for last year 247—this, too, in a population of 250,000, with fourteen other lodges in competition. And the sister lodges are no small fry, either; one is over 80 strong, another over 600, and several between 200 and 400, and all have been eminently successful.

The number of lodges in good standing Dec. 31, 1890, in Georgia jurisdiction was 88. Members to same date, 2,500, a gain for the year 1890 of 1,005 members. Pay roll for grand lodge session, \$1,573.74.

I. O. O. F.

The Late Inventor, John Ericsson, an Odd Fellow—Notes.

The distinguished inventor, Capt. John Ericsson, was for many years an earnest and zealous member of the order, and when his honored remains were conveyed to the cruiser Baltimore, in New York, for interment in Sweden, his native country, Amasa and Mathew lodges, of that city, and other lodges from Kings county, under Deputy Grand Master Spooner, formed part of the escort.

The I. O. O. F. have nearly 20,000 financial members in Australia, or an increase of about 3,500 in three years.

The constitution of subordinate lodges in Ontario will admit a person to membership for \$5 and for each degree.

The grand lodge of New York at its recent session fixed the per capita tax in that state at four cents.

The Odd Fellows of Findlay, O., are temple building.

Secret Societies in Atlanta.

There are twenty-nine secret societies in Atlanta, with sixty-seven subordinate lodges, councils, tribes, leagues and so forth, having a total membership of between 6,000 and 7,000. All are in a most prosperous condition and doing good work, not only for their individual members, but for the city at large—Atlanta Constitution.

The Universal Order of Co-Operation.

This order is paying \$100 to persistent members who have fulfilled their pledges of "bringing in two members," and in the short space of three months has enrolled over 12,000 members and established thirty-five branches in seven states.

BUSINESS.

OFFICE OF THE TIMES.

LOS ANGELES, March 31, 1891.

As is usual at the close of the month trading was very quiet today, and but few changes were noted in the local markets. Poultry and eggs continue very dull. Eggs are a trifle lower. Poultry is not so plentiful as for some days previous, but prices are not improved.

Advices from the grain centers, both in this country and Europe, report higher prices for wheat and other cereals. The local market, however, has not been materially affected since the advance of last week.

Dealers in citrus fruits report that while there has been a great appreciation of values for oranges and lemons in round lots, the local retail and jobbing prices are scarcely any higher.

A dispatch from Ontario says: "Orange and lemon shipments from Ontario for March were 4380 boxes, nearly eleven carloads. The April shipments will be the largest."

Money, Stocks and Bonds.

By Telegraph to the Times.

NEW YORK, March 31.—Money—On call, easy; closing offered at 2 1/2 per cent.

PRIME MERCANTILE PAPER—5-67.

STERLING EXCHANGE—Quiet and steady; 60-day bills, 4.85; demand, 4.85 1/2.

NEW YORK, March 31.—All interest in the stock market today was confined to the grain and industrial. The rise in sugar, local market, however, has not been materially affected since the advance of last week.

Government bonds were firm.

NEW YORK STOCKS AND BONDS.

PASADENA.

Office: No. 261-2 E. Colorado Street.

NEWS NUGGETS.

Pink and White German at the Carlton.

FACTS ABOUT OUR RAINFALL

How Much More Rain Are We to Expect This Season?—A Big Batch of Bravities—Personal Mention.

Probably the prettiest German that has ever been given in Pasadena that has tendered last night at the Carlton by numerous society ladies of town to their gentlemen friends. The figures were new and beautiful, the favors costly, the music excellent, the decorations superb and the refreshments palatable and well served; nothing, indeed, was left undone to make the affair a brilliant social success.

It was a pink and white German, the floral decorations—excepting numerous palms and growing plants, which were used to lighten the effect—being in these colors. Both parlors were profusely and artistically decorated, a conspicuous amount of fruit blossoms being used.

Dancing began about 9 o'clock. The orchestra—Arend's of Los Angeles—sat in the wide hallway between the parlors, which was also used for dancing. B. Marshall Wolkyns and Mrs. C. R. Martin led, assisted by J. H. Onthwaite and Miss Brown. The patronesses were: Mrs. B. M. Wolkyns, Mrs. G. F. Granger and Mrs. O. Stewart Taylor. There were eight fancy and as many favor figures. The favor figures were for the most part new and reflected much credit on the leaders. Conspicuous among them were the chrysals, the Japanese parasol and the April-fool figures. The favors were exceptionally handsome. They included bouquets and bouquets, souvenir ribbons hand decorated, hand-decorated handkerchiefs and pinballs, embroidered China silk pinballs and sachet bags, bookmarks and decorated glass balls, decorated playing cards, cases made of rice paper, chateaux, housewives and ashtrays, and the cascarons consisting of imitation eggshells filled with different-colored tinsel which were broken over the heads of the ladies.

Refreshments were served about midnight and the dancing continued until nearly 2 o'clock. The dancers were paired off as follows: B. M. Wolkyns and Mrs. C. R. Martin; J. H. Onthwaite and Miss Brown; Mrs. B. M. Wolkyns and Mrs. G. F. Granger; Mrs. O. Stewart Taylor and Mrs. B. M. Wolkyns; Mr. Miller and Mrs. Harding; Mr. and Mrs. Murphy; Mr. and Mrs. Reynolds; Mr. Holman and Mrs. Wolkyns; Mr. and Mrs. Johnston; Mr. and Mrs. Locke; Mr. Shoemaker and Mrs. Shoemaker; Mr. Stenger and Miss Cooley; Mr. Vandervoort and Miss Gleason; Mr. Gilmore and Miss Wilson; Mr. Kayser and Miss Vassar; Mr. Howard and Miss Farr; Mr. Schaff and Miss Lowe; Mr. Burkes and Miss L. Lowe; Mr. Hill and Miss Loring; W. Wetherby and Miss McNally; Mr. Howard and Miss B. M. Wolkyns; Mr. Christopher and Miss Stevens; Mr. Taylor and Miss Griffith; Mr. Staats and Miss Cole; Mr. Bell and Miss Viall; Mr. Granger and Miss Mabey; Mr. Lindsey and Miss Greenleaf; Mr. and Mrs. Morgan; Dr. Radebaugh and Miss Parvin.

Among the handsome gowns worn were noticed the following: Mrs. B. M. Wolkyns, black silk, en train; Mrs. Granger, salmon satin trimmed with garnet velvet and white lace; Mrs. Taylor, white Ottoman silk, en train; Mrs. Martin, tan and mahogany brocade, demi-train; Miss Brown, blue China silk; Mrs. Wetherby, black gauze with pink velvet and white lace; Mrs. Wolkyns, white silk net; Mrs. Wolkyns, gray and white crepe; Mrs. Gilmore, white lace with pink flowers; Miss Shoemaker, white cashmere with gold braid; Miss Cooley, lavender brocade silk; Miss Vassar, white flowers; Miss Viall, white silk net; Miss Mabey, sea foam green and pink silk, white lace trimmings.

FACTS ABOUT THE RAINFALL.

Mr. Nelmes Furnishes Some Interesting Figures.

Thomas Nelmes furnishes the following interesting figures regarding the amount of rainfall at Pasadena: Precipitation for March, .88; precipitation for the season, 15.77 inches.

In calculating the general average for the last eight years to arrive at the probabilities of the amount of rain we may expect this season, Mr. Nelmes has discovered the following suggestive figures: General average of precipitation after this date for eight years, 8.07 inches; for seven years, 3.08; for six years, 2.16; for five years, 1.90; for four years, 1.32; for three years, .89; for two years, 1.11; for one year, .89. These figures show a gradual diminution of rain after March, and yet the general average shows a gradual increase as the following figures show: General average for eight years, 25.30 inches; for seven years, 27.28; for six years, 24.40; for five years, 27.28; for four years, 27.49; for three years, 31.61; for two years, 36.58; for one year, 48.87.

POOR POETRY.

A San Franciscan Says We Haven't the Gift Divine.

Ambrose Bierce, in Sunday's Examiner, has the following to say on the recent efforts of one of our poets:

A correspondent sends me a "circular," with the "compliments of Pasadena," in which that pretty town appears the outlying provinces of its multifarious advantages and sundry merits. I concede them all, and more; but one thing Pasadena is deficient in; she is unable to write high-class poetry. The specimen which she submits in the "circular" is as follows:

"From the orange and the bloom
Come the orange and the bloom
To alleviate our sorrow at the fall of corner lot.
And the olive and the vine
With the roses intertwine
Where speculation's main is buried and forgo."

Now this, I submit, is inferior poetry; it hasn't a thrill. It does not get a neck-hold on the emotions nor grasp the sentiments. It is faulty even in mechanism; "forgot" is not a fair rhyme to "corner lot." The metaphor in the final line arouses the suspicion of the judicious. Pause, Pasadena, pause with suspended pen and reflect; how can a man be buried in "corner lot"? You are great in roses, and can turn out a pretty good quality of Republican Governor, but for bang-up, square heel-and-toe poetry

there is hardly a town in our northern cabbage belt but can wipe up the ground with you.

The Riverside Tournament.

For the information of members of the local tennis club, the following facts are given relating to the coming tournament at Riverside: The tournament opens April 7, at 2:30 p. m., and will continue on subsequent days until finished. The events are gentlemen's singles and doubles, ladies' singles and mixed doubles; all handicaps. Two prizes for events; entrance fee, 50 cents. Entries for gentlemen's singles must be forwarded to G. L. Waring, Riverside, not later than April 6. Entries for the other events can be made on the grounds.

BREVITIES.

April fool.

Yesterday's overland was two hours late.

Collectors will be particularly conspicuous today.

A meeting of the Knights of Pythias was held last night.

Treasurer Conant of the Los Angeles Theater was in town yesterday.

Pasadena has a lady barber. Look out for a rush of trade in her direction.

G. W. Dugger has returned from San Francisco after a pleasant trip of about two weeks.

Justice Rose yesterday fined a native Californian \$5 for leaving a horse unburied on the street last week.

The Mendelssohn Quintette Club of Boston will appear in the Grand Opera House the latter part of the month.

Rev. Dr. Conger and Rev. Mr. Thompson of Los Angeles will exchange pulpits next Sunday morning.

Miss Mabey received a telegram yesterday afternoon announcing that her father was dying at Grand Rapids, Mich.

A squad from Company B took part in a battalion drill in Los Angeles last night. Lieut. Campbell was in command.

A. S. Butterworth left for the north yesterday to assume his new position as head of the nightwatch at San Quentin.

Rev. Mr. Thomson and wife of Los Angeles, accompanied by a friend from the City of Mexico, spent yesterday in town, the guests of Rev. Dr. Conger.

Among yesterday's arrivals at Hotel Green were: P. C. Baker, Redondo; E. R. Lloyd, Della Lloyd, Ethel G. Lloyd, E. A. Rowland Lloyd, Iowa; C. A. Warner, Los Angeles.

Mr. Decker has local baseball line ready to meet the Hotel Green Club as soon as the ground is ready for play. Saturday afternoon next is suggested as a good time for the opening match.

A miniature bonfire was observed Monday evening in one of the large pepper trees on the east side of Menzies avenue, apparently caused by the contact of an electric-light wire with a large green limb.

A regular monthly meeting of the Valley Hunt will be held on Saturday. The riders will meet at the corner of Orange Grove avenue and Colorado street at 9 o'clock. Luncheon will be served at the Verdugo Cañon, near Glendale.

Dr. Smith's funeral yesterday morning was largely attended. The services were conducted by Rev. L. P. Crawford. There were numerous handsome floral pieces about the casket, conspicuous among which was one sent by those connected with the postoffice department.

All who have flowers of any description to contribute to the Pasadena's exhibit at the Chicago orange carnival are requested to bring them to the car which will be standing Friday afternoon on the Santa Fe track just north of Colorado street. The car will leave for the East that evening.

The dog poisoner is still active. One of the latest victims is a valuable pointer belonging to Dr. Ward B. Rowland. Only a few days ago the owner was offered \$250 for the dog, whose pedigree is known for thirteen generations back; but money couldn't have bought him, as he would be a community no harm if the poisoner was treated to a dose of his own medicine.

GOTO ARROWHEAD HOT SPRINGS

and have that rheumatism cured with hot (magnetic) sand.

Bibulous and curious; Easter novelties a specialty. Hanford's Art and Curio Bazaar, 1168 S. Fair Oaks Ave., near Raymond Station, Pasadena.

SANTA MONICA.

Another Odd Fellows Meeting—Weekly Meeting of the Trustees.

SANTA MONICA, March 31.—[Correspondence of THE TIMES.] The Odd Fellows held another interesting preliminary meeting Monday, at which a large number of new names were added to the already long list of applicants for membership. They intend to hold their first regular lodge meeting in about two weeks.

Several weeks ago a party of Santa Monicaans left for San Bernardino county, in search of gold, with flying colors and a brass band. They returned Monday in good health, sadder but wiser men, having left the band and desert behind them.

The Board of Trustees held its regular weekly meeting Monday evening, at which all were present, and which was largely attended by citizens who came out to see what the board would do in relation to the saloon business for the coming year. The whole matter was laid over until the second Monday in April. The general tendency seems to be to compel all taking out a license to pay for the whole year in advance; to grant licenses to none but principals; and to keep the limit down to a reasonable number. Citizens generally need have no fear about the matter. The present board will not over-run the town with a saloon in every corner.

Mr. Gen. Fremont and daughter, who have been sojourning at the Kimball cottage on Ocean avenue for the past few months, left yesterday for Los Angeles.

Mr. and Mrs. L. D. Wyatts of Detroit, Mich., spent Monday here delighted with our place.

Redondo, March 31.—[Correspondence of THE TIMES.] The presence of several large schools of porpoises in the bay for the last few days has proved lucky to the fishermen, as by the smaller fish have been driven nearer to shore, and large hauls are being made with the net.

A party of ladies and gentlemen rode over on horseback from Santa Monica today and lunched at the Redondo. The latest arrivals at the Redondo are: Nelson C. Hawks, Mr. and Mrs. George W. Hooper, J. B. Roby, San Francisco; Mr. and Mrs. C. E. Ross, Mrs. H. J. Shiner, Rochester, N. Y.; Mr. and Mrs. J. D. Wells, J. A. Whitney, C. F. Chandler, Mr. and Mrs. A. H. Hughes, Boston; Mrs. L. A. Porter, Charlestown, Mass.; Mr. and Mrs. D. A. Parker, Goffstown, N. H.; Mr. and Mrs. L. W. Blunn, Los Angeles; George W. Roby, Mrs. L. C. Waldo, Detroit; Mrs. Donahue, Miss Stanley, Mr. Beville, Santa Monica; Mr. and Mrs. A. H. Glascock, California. B.

California Oil.

Our Consul at Nice notes the extensive adulteration of the olive oil exported from France. It is a fact that our people who like oil on their salad have become so accustomed to the taste of an imported adulterated cotton-seed, ground nut, olive and other oils, that when they get a pure article of California production they do not at first appreciate it. It rests with California growers and dealers to educate the public taste to know and use pure olive oil, and make a market for their product.

In Darkest Texas.

[San Francisco Bulletin.] Stanley's explorations "In Darkest Texas" were neither extensive nor minute, owing to the hostility of the natives. It is a pity that a country with such possibilities has not been opened to civilization.

The Ferris Era says that the roads and bridges in that section of county are in fine condition.

When Baby was sick, we gave her Castoria.

When she became a Child, she cried for Castoria.

When she became a Woman, she clung to Castoria.

When she had Children, she gave them Castoria.

Advertising.

It is said will sell anything, this is true in a measure, but for staying qualities, merit is the test. Extensive advertising may sell anything where it is new or unknown, but after it comes into general use, it is judged according to its worth. The continued and steady growth of Swift's Specific
